Keeping hackers out.

The vast majority of customer deposits are stored offline in air-gapped cold storage. We only keep enough online to facilitate active trading, which greatly minimizes risk and exposure.

Monitoring around the clock.

Our auditing programs monitor exchange activity 24/7/365. Their job is to report and block any suspicious activity before it becomes a problem.

Your funds are yours. Period.

Any funds you put into the exchange are only used to facilitate trading through your account. Unlike banks, we do not operate on fractional reserves.

Create Account

The email address you provide will become your Poloniex ID and will be used for all future communications, including account recovery. **Protect your email account like you would your Poloniex account.** Sign-ups using throwaway email addresses will be rejected.

Phone number is optional, but recommended. It will be used to aid in account recovery should you lose access to your email address or 2FA credentials.

Your password must be at least 8 characters long, but it is **HIGHLY** recommended that you choose a random, alphanumeric password of at least 32 characters.

NEVER use a password for an exchange that you use ANYWHERE else, especially for the email address you sign up with.

Two-Factor Authentication (2FA)

TWO-FACTOR AUTHENTICATION (2FA) IS DISABLED

- Salva e/o stampa il codice da 16 Digit Key
- Inserisci il Password del tuo Account POLONIEX
- Inserisci il codice generato dall'App Google Authenticator

Two Factor Authentication Disabled

For extra account security, you can turn on two factor authentication (2FA). Poloniex uses Google Authenticator for 2FA.

In order to use 2FA, scan the QR code to the right into the Google Authenticator app on your phone, or enter the 16-digit key that appears under the QR code. Input the six-digit code provided by the Google Authenticator app and your account password below, then click "Enable 2FA".

Username/Email:
Password:
Code:

Before turning on 2FA, write down or print a copy of your 16-digit key and put it in a safe place. If your phone gets lost, stolen, or erased, you will need this key to get back into your account!

☐ I have backed up my 16-digit key.

Enable 2FA

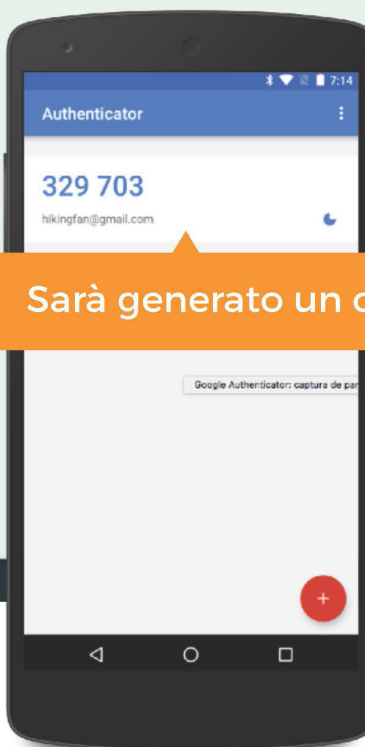

16-Digit Key:

Print a backup of your recovery key.

CODICE GOOGLE

NOTE: This code changes each time you enable 2FA.

If you disable 2FA this code will no longer be valid.

Sarà generato un codice

Two-Factor Authentication (2FA) configurato

POLONIEX EXCHANGE MARGIN TRADING LENDING BALANCES ▾ ORDERS ▾    

TWO-FACTOR AUTHENTICATION (2FA) IS **ENABLED**

Two Factor Authentication Enabled

If you want to turn off 2FA, input your account password and the six-digit code provided by the Google Authenticator app below, then click "Disable 2FA".
